FLORIDA DEPARTMENT OF INSURANCE

ANNUAL REPORT

REPORT OF THE DEPARTMENT OF INSURANCE
STATE OF FLORIDA

GIVING THE NAMES OF INSURANCE COMPANIES AND FRATERNAL BENEFIT SOCIETIES AUTHORIZED TO DO BUSINESS IN FLORIDA WITH A STATEMENT OF THEIR FINANCIAL CONDITION AND TRANSACTIONS IN THE STATE OF FLORIDA FOR THE YEAR ENDED DECEMBER 31, 1988

ALSO

ENTRIES AND WITHDRAWALS FROM JANUARY 1 TO JUNE 30, 1989 INCLUSIVE

TOM GALLAGHER
TREASURER
INSURANCE COMMISSIONER
FIRE MARSHAL

OFFICE OF THE TREASURER
DEPARTMENT OF INSURANCE
The Capitol, Tallahassee, Florida 32399-0300

TOM GALLAGHER
TREASURER
INSURANCE COMMISSIONER
FIRE MARSHAL

July 1, 1989

The Honorable Bob Martinez
Governor
The Capitol
Tallahassee, Florida 32399-0001

Dear Governor Martinez:

In accordance with Chapter 624.315, Florida Statutes, I am pleased to submit to you the Annual Report of the Department of Insurance for the Fiscal Year July 1, 1988 to June 30, 1989.

Respectfully submitted,

Tom

Tom Gallagher
Treasurer and
Insurance Commissioner

TG/Kgh

Affirmative Action/ Equal Opportunity Employer

STATE TREASURERS OF FLORIDA
FROM THE ADMISSION OF THE STATE INTO THE UNION

REPORT BY TREASURER TOM GALLAGHER

The 1989 Legislative Session marked the beginning of a new era in the Department of Insurance history book as a Republican Treasurer led the way for innovative and far-reaching insurance consumer legislation. The department sought passage of 30 measures, 26 of which became law, which enhanced the regulatory tools of the Division of Treasury, the Division of State Fire Marshal and the Department of Insurance. These regulatory tools included the enactment of legislation which relates to insurance company solvency, health insurance, medicare supplement insurance regulations, insurance agent licensing, and changes to Chapter 633 - fire prevention and control. This is a brief summary of significant legislation affecting the department's regulatory responsibilities. For additional information on legislation, call the Office of Legislative Affairs, at 904/488-6392.

INSURANCE REGULATION LEGISLATION

Insurance Reform Act (CS/SB 845) CH. 89-360
Effective date: 10/01/89; multiple effective dates

This bill combines the contents of sixteen insurance bills. The bill includes the following provisions:

1. Interest on Cash Surrender - Requires life insurers to pay interest to the policyholder if the cash surrender value is not paid within 30 days of demand.

2. Mandatory Rate Review - Requires property, casualty, and health insurers to annually make either a rate filing or an actuarial certification that their rates are actuarially sound. Annual rate filings or actuarial certification will promote rates that are adequate with the current economic conditions.

Allows property and casualty insurers to meet annual rate filing requirements by having a licensed rating organization make an annual rate filing or certification on behalf of the company.

3. Insurer Rehabilitation - This part of the bill provides for better handling of the assets of insolvent insurers since it provides procedures to aid the receiver in recovering assets of the insolvent insurer which are in the hands of third parties.

The committee substitute revises state law governing insurer insolvency to provide:

(1) that delinquency proceedings brought under Chapter 631 are in equity;

(2) a procedure to be used when funds or other property is in the possession of third parties and the receiver demands delivery of such funds or other property;

(3) the preservation of the property or funds,

(4) for the elements of recovery should the receiver be successful in establishing claims;

(5) the unearned commission and unearned premiums constitute an asset of the insurer;

(6) that compliance with accounting requirements constitutes a requirement for continued licensure;

(7) that special deposit claims and secured claims are applicable to liquidation proceedings and revise the method for valuing the claims;

(8) that a claim offset must be fully matured as of the date of filing of a liquidation order;

(9) that transfers of an affiliate of an insurer are voidable, within the prescribed time period;

(10) that a seizure order may direct the department to take possession and control of premium funds and other property of the insurer held by an affiliate and may enjoin any affiliate from described actions, and

(11) that an insurer is defined as insolvent when an order in a delinquency proceeding has been entered.

4. Surplus Lines - The requirement contained in s. 626.923, F.S., is removed that requires surplus lines agents to send a completed copy of the surplus lines policy to the department within 60 days of policy issuance. However, the committee substitute amends the reporting requirements to require that surplus lines agents shall submit copies of the policy, or other forms of insurance confirmation, within 30 days, if these documents are requested by the Department of Insurance.

Increases the time that surplus lines agents must retain a copy of the policy from 3 to 5 years. In addition to the longer period of retention, the committee substitute requires that all forms of insurance confirmation must be retained for 5 years.

5. Outline of Coverage - Requires insurers to provide an outline of coverage to consumers who purchase automobile insurance policies or homeowner insurance policies. The outline will provide the consumer with an easy to understand summary of the policy they are purchasing.

6. Solvency - Several financial requirements of insurers are amended in order to prevent insolvencies. Stronger surplus requirements,

premium limitation, reinsurance certification, investment limitation, and other changes are included in order to decrease the possibility of insurer insolvency.

7. Excess Rates - Insurers are required to complete a signed consent form when charging premiums that are in excess of approved rates. The signed consent form must list the filed rate and the excess rate that will be charged to the policyholder.

The number of excess rate policies are limited to no more than 10 percent of commercial insurance policies and no more than 5 percent of personal line policies.

8. Primary Agent - Prohibits suspended or revoked insurance agents from continuing to work in an insurance agency, thereby eliminating the likelihood of further violations of the Insurance Code by such agents and fraudulent acts upon consumers.

9. Agents Bill - Provides tighter constraints and more severe penalties on misconduct of insurance agents, such as prohibiting agents from overinsuring a policyholder or from requiring auto insurance policyholders to purchase travel club memberships.

10. Housekeeping Bill - Various errors and problems with insurance statutes are clarified. It provides a limited grandfather exemption for certain religious organizations to engage in insurance activities.

11. Administrative Supervision - A procedure is created whereby an insurer would be placed under administrative supervision (supervision) of the Department of Insurance (department). Supervision would be a step short of court-ordered receivership under Chapter 631, authorizing rehabilitation, conservation, or liquidation. Under supervision, department personnel, or their agents, would have prior approval authority over all significant business decisions made by the company.

The department may initiate the process to place an insurer under supervision if it finds that:

(1) the insurer is in unsound condition;

(2) the insurer's business practices are hazardous to the public;

(3) the insurer has exceeded its authority; or

(4) the insurer gives consent.

An insurer is in an "unsound condition," if:

(1) surplus, capital, or capital stock is impaired;

(2) the insurer continues to write new business when it has failed to maintain the required surplus or capital; or

(3) the insurer attempts to dissolve or liquidate without first making satisfactory provisions for liabilities.

If placed under supervision, the insurer has 60 days from this date of notice to comply with the department's requirements. If the condition which placed the insurer under supervision is remedied, the department is required to release the insurer from supervision. Supervision may be extended by 60-day increments. However, the insurer may request an administrative hearing pursuant to Chapter 120, in the event the department extends the supervision.

12. H.M.O. Regulatory - Requires that H.M.O. salesmen must be qualified health insurance agents. H.M.O.'s have to license their salesmen just as insurance companies license their health insurance agents. To qualify for licensure with an H.M.O., an individual must meet identical requirements of health insurance agents, as provided in Chapter 626, F.S., including passage of an examination. All provisions of the Insurance Code applicable to licensing of health insurance agents, including disciplinary procedures, apply to H.M.O.'s and their licensed agents.

The bill also modifies the fine imposed for filing an annual report late, from "$1,000" to "up to $1,000," and from "$2,000" to "up to $2,000," to give the Department of Insurance the discretion to fine a lesser amount.

In addition, annual reporting requirements are simplified and consolidated by eliminating the filing of unnecessary information.

The bill disallows use of intercompany receivables from the parent company or affiliate to the H.M.O. in meeting statutory surplus requirements, except under certain circumstances. This clarifies existing law which provides that "advances" to officers, employees, etc., are not permitted assets.

Finally, the bill requires the Department of Health and Rehabilitative Services to only contract with Medicaid H.M.O.'s whose principals have no criminal connections related to the delivery of Medicare or have not been found guilty of fraud, income tax evasion, or obstruction of justice.

13. Group Property & Casualty Insurance - Authorizes insurers to sell private passenger auto insurance and homeowners insurance on a group basis, which will result in lower premiums to consumers due to the reduced administrative costs associated with group policies as compared to individual policies.

14. Bail Bondsmen - Various regulations of bail bondsmen are made tighter and also revises language to assure that surety companies pay bail bonds to the courts when defendants fail to appear.

15. Confidentially of Risk Management Claims - Provides for confidentially of risk management of the

state and local governments claim files in order to promote a policy decision to encourage risk safety management in order to reduce the frequency of accidents giving rise to litigation.

Also, provides that claims meetings held by the state and local governments that evaluate claims or determines settlement assessments are not subject to sunshine laws.

16. Medicare Supplement - Conforms Florida's Medicare supplement insurance law to the changes required by the Medicare Catastrophic Coverage Act of 1988 (P.L. 100-360) which addressed the advertisement of Medicare supplement policies and revised minimum coverage standards.

Notice of Cancellation (SB 368) CH. 89-222

Effective date: 10/01/89

Requires a 45-day advance written notice of cancellation, nonrenewal, or change in rates for both individual and group health insurance policies. If the insurer fails to provide this notice, the coverage remains in effect at the existing premium until 45 days after the notice is given or until replacement coverage is obtained, whichever occurs first. For group policies, the notice may be sent to the group policyholder, unless the insurer bills any member of the group (certificateholder) for premiums directly, in which case the notice must be provided directly to each certificateholder.

Medicare Rollover (CS/HB 332) CH. 89-185

Effective date: 10/01/89

Requires replacement policies for Medicare supplement insurance to cover existing health conditions to the extent covered by any policy being replaced.

Insurance Premium Tax (CS/CS/CS/HB 336) CH. 89-167

Effective date: 06/27/89 except as otherwise provided

The premium tax rate is reduced from 2 percent to 1.75 percent. Other significant features are:

(1) to reduce the cap for combined salary and corporate tax credits;

(2) to reduce the FIGA and FLHIGA (guaranty association) credits;

(3) to remove the credit for State Comprehensive Health Association (SCHA) assessments and provide for sunset review of the SCHA prior to October 1, 1990, and prohibit any coverage from extending past July 1, 1990;

(4) to provide for phase-in of the premium tax on medical malpractice self-insurers; and

(5) to create a task force to study the legal and economic ramifications of the insurance premium tax; and

Approximately $68 million in revenue is projected to be raised.

Uninsured Motorist Coverage (HB 331) CH. 89-243

Effective date: 10/01/89

Eliminates the implementation of the availability of "difference in limits" uninsured motorist coverage (UM) on October 1, 1989. Under "difference in limits" coverage, motorists recover up to the difference between the negligent motorist's liability coverage and the amounts contained in the policyholder's UM coverage.

For example, if Motorist A with $100,000 in UM coverage suffers $150,000 in injuries as a result of Motorist B, who has $10,000 in liability coverage, Motorist A would recover $10,000 of Motorist B's coverage, plus $90,000 from Motorist A's UM coverage.

Under excess UM coverage which the bill will require to remain in effect, the payment of uninsured motorist protection is in excess of the amount of liability coverage carried by the at fault driver. Thus, in the example above, Motorist A would collect $110,000 under excess coverage. Motorist A would collect $10,000 from Motorist B and $100,000 from Motorist A's UM coverage.

In addition, the bill raises death benefits of personal injury protection from $1,750 to $5,000. Also, it provides that if arbitration is provided to settle uninsured motorists claims, the result of arbitration is to be binding on the parties.

Florida Birth-Related Neurological Injury Compensation Plan (NICA) (CS/CS/HB 339) CH 89-186

Effective date: 06/28/89

Clarifies the language and intent of the 1988 Florida Birth-Related Neurological Injury Compensation Plan. It extends coverage to supervised nurse midwives in teaching hospitals. It exempts teaching hospitals, retired physicians, military physicians, Veterans' Administration physicians, and physicians who work full-time in a mental health facility or correctional institution from assessments. The bill also allows NICA to sue physicians who fail to pay assessments and (Beginning July 1, 1990) requires the Department of Professional Regulation to nonrenew the license of any physician who has failed to satisfy a judgment for nonpayment of assessments.

Workers' Compensation (CS/SB 896) CH. 89-289 Effective date: 10/01/89 except as otherwise provided

In an effort to reform and reduce cost to the system, numerous revisions are contained in the bill.

All rehabilitation services will no longer be mandatory. Only training and education will be provided if an evaluation so warrants the need. If training and education is provided, the Division of Workers' Compensation will select the provider and the Workers' Compensation Trust Fund will pay for it. A comparison study of public and private rehabilitation evaluators will be conducted in several select counties.

Attorney fees will only be added on if payment is not made within 21 days of filing a claim. Also, the amount of attorney's fees will be limited to being based on only a portion of future medical benefits.

The prerequisite for obtaining wage-loss benefits is tightened up and a good faith work search is added as a condition to obtaining such benefits. A claimant who has not found employment within a specified time period may have his earnings deemed if there is evidence of actual job openings in the claimant's geographical area.

Utilization review of medical care is being expanded and overutilization of care may result in deauthorization of the transgressor. Enhanced access to workplace injury medical records and medical providers will be permitted with certain limitations.

Employers who suspect substance abuse occasioned an injury can require a drug test be given. If test results are positive, the first $5,000 of benefits will go towards payment for a drug rehabilitation program.

Renewal of a group self-insurer fund premium as a condition of receiving a dividend will no longer be permitted. Extremely dangerous workplaces will be so identified and those employers will be required to furnish safety training programs for their employees.

Deputy Commissioners will now be called Judges of Compensation Claims (JCC) and their salaries will be tied to that of a circuit court judge. Mediation will be mandatory upon request and will be conducted by a JCC or a General or Special Master. It will be binding if both parties agree.

All construction industry employees will be covered under the law while race car teams will not. Building contractors will have to secure workers' compensation insurance before obtaining a license or pulling a building permit and will have to maintain insurance in order to maintain their license.

Professional athletes will not be able to collect both workers' compensation and their collective bargaining agreement benefits. Law enforcement officers will be allowed to be retained on full pay status while injured, but not collect workers' compensation.

An oversight board to annually review the system is created, increased data collection and several studies are mandated. And finally, the act is scheduled to sunset on October 1, 1991.

Continuing Care Contracts (CS/SB 1252) CH. 89-363 Effective date: 07/06/89 except as otherwise provided

Revises requirements and procedures for continuing care COA and provisional COA applications to engage in the business of providing continuing care.

Information to be presented in the required feasibility study is modified to include the study's assumed inflation factor, financial forecasts prepared in accordance with certain specified standards, and the forms of the continuing care reservation and escrow agreements proposed to be used by the provider in the furnishing of care.

The department will have 30 days after receipt of an application to review the provisional COA information for completeness, and to notify the applicant requesting any necessary additional information. If the department determines the application is substantially incomplete, it may return such application to the applicant with a written notice that the application is incomplete and unacceptable for filing without further action required by the department.

Within 15 days after receipt of all requested additional information, the department must notify the applicant that all such requested information has been received and that the application is deemed to be complete as of the date of the notice.

Within 45 days from the date an application is deemed to be complete, the department must complete its review and issue a provisional COA to the applicant based on certain requirements. If the application is denied, the department shall notify the applicant in writing, citing specific failures to comply with Chapter 651, F.S. The applicant would then be entitled to a hearing pursuant to Chapter 120, F.S.

The issuance of a provisional COA entitles the applicant to collect entrance fees and reservation deposits from prospective residents which must be placed in an escrow account or on deposit with the department, pursuant to s. 651.033, F.S., until a COA is issued by the department. This legislation provides that an escrow agreement must be entered into between the bank, savings and loan association, or trust company and the applicant. The agreement must state its purpose is to protect residents and that it is subject to approval by the department. All such funds will not be subject to any liens or charges by the escrow agent or to any judgments against the applicant or facility, with certain exceptions.

The committee substitute provides that the department must issue a COA to the holder of a provisional COA, but no COA will be issued until the holder of a provisional COA provides the department with certain information. Such information must include, among other things, certification by the consultant who prepared the original feasibility study that there has been no material adverse change in status regarding the feasibility study. In addition, complete audited financial statements of the applicant prepared in accordance with certain requirements must be submitted and certain information would no longer be required.

The department must issue a COA upon its determination that the applicant meets certain requirements. Notwithstanding satisfaction of the 30 percent minimum reservation requirements of s. 651.023(1)(c), F.S., no COA will be issued until the project has a minimum of 50 percent of the units reserved.

The committee substitute provides that a provider may satisfy the minimum liquid reserve requirements of this section by acquiring a clean, unconditional irrevocable letter of credit in an amount equal to requirements, from a financial institution, meeting certain standards. The committee substitute provides for minimum requirements which the letter of credit must meet.

The committee substitute provides that it will be considered an unfair insurance trade practice for any person, other than a provider licensed pursuant to Chapter 651, F.S., to advertise or market to the general public any product similar to continuing care, through the use of terms such as "life care," "continuing care," or "guaranteed care for life," or similar terms, words, or phrases.

The committee substitute also provides that, effective July 1, 1989, s. 651.027, F.S., 1988 Supplement, is repealed.

Motor Vehicle Insurance (CS/SB 1295) CH. 89-138
Effective date: 10/01/89

Clarifies provisions of motor vehicle legislation passed in 1988.

Allows policies providing $30,000 of combined property and personal injury liability to satisfy the financial responsibility law.

Provides civil liability immunity for insurers for errors that arise as a result of reporting requirements.

Insurers are required to report the nonrenewal and cancellation of PIP policies to the Department of Highway Safety and Motor Vehicles.

Creates a 28-member Motor Vehicle Insurance Task Force. The task force will examine the affordability and availability of motor vehicle insurance to determine methods to lower motor vehicle rates. The task force is a continuation of a Motor Vehicle Task Force created in 1988. Funds of $248,953 are appropriated from the Insurance Commissioner's Regulatory Trust Fund to staff and pay for the expenses of the task force.

Agents Continuing Education (HB 1396) CH. 89-210
Effective date: 07/01/89

Requires insurance agents to complete continuing education requirements. The Department of Insurance may approve courses that will satisfy the requirements of continuing education. In addition, the bill lists a number of professional courses that may be taken in order to obtain continuing education credits.

The Department of Insurance is authorized to not renew licenses for agents that do not comply with the continuing education requirements.

Title Insurance Agents (CS/CS/HB 548)
CH. 89-305
Effective date: 10/01/89 except as otherwise provided

Increases the regulation of title insurance agents.

Specifies criminal penalties for title agents, officers, directors, or independent contractors that misappropriate funds. The enumerated criminal penalties generally follow the same penalties that exist currently for misappropriations under s. 812.014, F.S. However, the bill provides that misappropriation of funds of $300 or less is a first degree misdemeanor. Current law provides that the first offense of conversion for less than $300 is a second degree misdemeanor.

Placement of the penalty provision in the Insurance Code may clarify and highlight the penalties available for misappropriation of funds.

Requires title insurers to remit $200 for each licensed title agent. In addition, title agents are also required to pay a $200 annual surcharge to the Department of Insurance.

Amends s. 626.8417, F.S., and provides criteria for required error and omission insurance. The committee substitute requires that error and omission insurance shall provide at least $250,000 in coverage per claim and an aggregate deductible no higher than $10,000. If error and omission insurance is not generally available, then the department is required to promulgate rules for compliance.

In addition, insurers must submit that to the best of the insurer's knowledge title agents have obtained a fidelity bond of at least $50,000. Furthermore, insurers must require agents to deposit $35,000 of acceptable deposits with the department as security. Obtaining a $35,000 surety bond will meet the deposit requirements.

Allows the department to establish rules limiting reasonable charges that may be made in addition to risk premiums. In addition, the department is provided authority limiting the amount of title insurance premiums that can be retained by the title insurance agents.

STATE FIRE MARSHAL LEGISLATION

Fire Prevention and Control/Chapter 633 (CS/SB 791) CH. 89-233
Effective date: 07/06/89

Increases fees in the five programs administered by the Bureau of Explosives and Fire Equipment: fire equipment dealers; fire protection system contractors; explosives users and handlers; boiler safety; and sparkler registration. In addition, fees are added for duplicate licenses, permits, or certificates and for scheduled examinations. The bill also authorizes the Bureau of Fire Prevention to establish fees to cover its services and operations.

Administrative matters involving dealers, contractors, explosives, and the Fire College are addressed to reduce confusion and increase efficiency.

It also increases the State Fire Marshal's regulatory assessment on fire insurance premiums from 0.625 to 1.0 percent. The bill also creates the State Fire Marshal Scholarship Grant Trust Fund to provide scholarships for firefighters to attend the State Fire College.

Firefighters No Smoking (HB 1456) CH. 89-89
Effective date: 06/19/89

Requires applicants for firefighter certification to provide an affidavit stating that they are nonsmokers and have been nonsmokers for at least one year prior to their employment.

TREASURY LEGISLATION

Treasury Bill (CS/SB 787) CH. 89-287
Effective date: 07/05/89

Contains a number of major changes to the Division of the Treasury. These changes include authorization to purchase Banker's Acceptances from banks other than those who are members of the Federal Reserve, removal of the language regarding "short-term" investments by the Treasury and the deletion of language concerning the SBA in administration of the Home Equity Conversion Program.

OTHER DEPARTMENT LEGISLATION

Lobbyist Registration (CS/HB 993) CH. 89-173

Effective date: 10/01/89

Requires lobbyists doing business with agencies with the Executive Branch to register with the Ethics Commission. The names of their clients, agencies they are lobbying, and the areas of interest would be required to be disclosed.

Department of Insurance Reorganization (CS/HB 392) CH. 89-258
Effective date: 07/03/89

Creates a Division of Legal Services and renames two existing divisions to better fulfill the department's mission by providing higher levels of service to the public without increasing costs.

SUMMARY OF LICENSED COMPANY ACTIVITIES FOR FISCAL YEAR 1988-1989

Listed below are those insurance companies licensed in Florida that were licensed during the fiscal year 1988, those companies that withdrew from Florida, those that were purchased by or merged with other companies and those that changed their name during the fiscal year. As of June 30, 1989 there were 758 property and casualty companies, including limited reciprocals, captives, and commercial self-insurance trust funds, 33 title insurance companies, 796 life and health insurance companies, and 38 fraternal benefit societies.

MUNICIPAL POLICE OFFICERS' RETIREMENT TRUST FUND EXCISE TAX DISTRIBUTION

Chapter 185, Florida Statutes, provides that each incorporated Florida municipality may impose an excise tax on insurance companies of .85 percent of its casualty insurance premiums written within the limits of the municipality. The purpose of this tax is to provide a retirement fund for the municipalities' police officers. The following excise taxes were collected and allocated to the participating cities' fund during the calendar year 1988:

Apopka	$105,292.76
Arcadia	55,055.42
Atlantic Beach	38,575.84

MUNICIPAL FIREFIGHTERS' PENSION TRUST FUND EXCISE TAX DISTRIBUTION

Chapter 175, Florida Statutes, provides that each incorporated Florida municipality may impose an excise tax on insurance companies of 1.85 percent of its property insurance premiums written within the limits of the municipality. The purpose of this tax is to provide a pension fund for the municipalities' firefighters. The following excise taxes were collected and allocated to the participating cities' fund during the calendar year 1988:

Apopka	$ 58,766.21
Arcadia	16,834.77

PREPAID COLLEGE BOARD

The Florida Prepaid College Board was established by the 1987 Legislature to provide a means through which many costs associated with a college education may be paid in advance at a rate lower than the corresponding rate at the time of enrollment.

The Florida Prepaid Postsecondary Education Expense Board set three goals for the program:

1. Conceptualize and implement the program by the Fall of 1988;
2. Maintain public awareness; and
3. Ensure the actuarial soundness of the Prepaid Postsecondary Education Expense Trust Fund and maintain a program that is self supporting without the use of tax moneys.

Through the hard work and perseverance of the Board, staff and selected program service providers, these goals have been realized.

By immediately hiring staff and vendors, the first goal was reached when Governor Bob Martinez "kicked-off" the program on September 22, 1988, by purchasing the first two contracts for his twin granddaughters.

Promptly after the program's commencement, the Board embarked upon a public awareness campaign to maintain interest in the program for the first four month enrollment period of September 22, 1988, to January 20, 1989. Successful attainment of this goal was deemed crucial to the realization of the program's objective of obtaining financial self-sufficiency in the first year of operations.

As a result of the public awareness effort, the Prepaid College Program attracted 45,695 enrollees purchasing 58,555 tuition and dormitory contracts during 1989.

Although it was originally estimated this program would take three years to be fully implemented, the third, and most important goal of financial self-sufficiency has been obtained in just one year, because of the number and value of contracts purchased.

GEOGRAPHICAL DISTRIBUTION

The geographical distribution of the number of contracts sold mirrors the population base of the state. The Miami area is, of course, the location with the largest number of contractual sales, Tampa/St. Petersburg is second with Orlando and West Palm Beach third and fourth, respectively. Seventy-four percent of the 45,695 tuition contracts purchased were four year university contracts. Of the 12,851 dormitory residence contracts purchased, thirty-eight percent were for two semesters, or one year, of dormitory expenses. Thirty-one percent of the total dormitory contracts sold were for four years, or eight semesters, of dormitory residence.

REVENUES

Prepaid college contract holders have made a substantial commitment to this program in its first year. Purchasers may either pay the entire value of a contract in one lump sum payment or they may select installment payments over either a five year payment schedule or a monthly payment schedule that will terminate with the enrollment of the beneficiary in a postsecondary institution. Twenty-two percent of purchasers have selected to pay under the lump sum option.

The total financial commitment of all payment options and plan types combined is just under $250 million for fiscal year 1989 nearly $60 million was collected.

BUDGET INFORMATION

For fiscal year 1988/89 the Florida Legislature appropriated $597,243 to implement the Prepaid College Program. This appropriation represents five full time staff positions, administrative expenses, and additional resources for staff support. The following is an itemization by appropriation category for use of these funds for the 1988/89 fiscal year:

1988/89 EXPENDITURES

Appropriation Category	**Amount**
Salaries	$ 184,303
Other Personnel Services	246,000
Expenses	136,296
Operating Capital Outlay	30,644
TOTAL	$ 597,243

This appropriation was classified as a loan from the Insurance Commissioner's trust fund that was paid back on June 30, 1989, and announced at a ceremony with Chairman Stanley G. Tate, Governor Bob Martinez, and Treasurer Tom Gallagher.

DEFERRED COMPENSATION

Background Statement

The Florida Statute 112.215 authorized the establishment of the State Employee's Deferred Compensation Plan. The Plan began in 1982 and has grown into one of the State's finest employee benefits. This statute directs that an advisory council provide policy guidance to the Treasurer who is charged with administering the daily activities of the plan. Approval of the State Board of Administration is required on major policy issues. The purpose of the Plan is to provide State employees with an opportunity to establish a self-funded supplemental retirement account that accumulates value on a tax deferred basis. Department of Insurance Rule 4C-6, which governs the Plan, has been promulgated in accordance with Internal Revenue Code 457.

Enrollment is open at all times to any State employee paid from a regular salary appropriation. All assets in the Plan, property rights purchased with those assets, and all income attributable to those assets are wholly owned by the State, subject only to the claims of the State's general creditors. Participants' rights under the Plan are equal to those of general creditors of the State in an amount equal to the fair market value of the deferred account balance for each participant. Funds are taxed as ordinary income upon receipt by the participant. Participants' access to the funds is restricted by Plan Rules.

The State has no liability for losses under the Plan, but does have a duty of due care as would be ordinarily required of any prudent investor. The State accounts for this Plan in an Agency Fund and believes that it is unlikely that it will ever use these assets to satisfy the claims of general creditors. Assets total approximately $200 million and there are over 28,000 participant accounts. Over $3 million are deposited by payroll deduction in the Plan each month.

One of the most distinguishing features of the Plan and keys to its remarkable success, is its exceptional variety of high-quality low-cost investment options. Participants are offered an array of 54 investment choices from seven competitively selected companies (Aetna Life Insurance and Annuity Company, Great American Reserve Insurance Company, Great-West Life and Annuity Insurance Company, Nationwide Life Insurance Company, Security First Life Insurance Company, Great Western Bank, and T. Rowe Price and Associates). The investment selections range from guaranteed fixed to variable rate products. The rates of return, considering the level of risk and nominal expense factors, are some of the most favorable to be found throughout the industry.

DIVISION OF INSURANCE CONSUMER SERVICES

The Division of Insurance Consumer Services protects, assists and informs the insurance buying public through its programs of (1) determining qualifications, developing and administering examinations and issuing licenses to insurance agents, solicitors, adjusters and other insurance representatives; (2) developing and distributing insurance buyer guides, establishing consumer awareness programs and making news releases; and (3) handling consumers' insurance complaints, claims and inquiries. This division is comprised of the Bureau of Licensing, the Bureau of Consumer Research and Education, and the Bureau of Field Operations, whose functions are briefly described as follows:

Bureau of Licensing

Makes certain that the insurance buying public of Florida is served by qualified agents, solicitors, adjusters and other insurance representatives.

NUMBER OF FLORIDA LICENSED FLORIDA AGENTS AND ADJUSTERS AS OF JUNE 30, 1989

Licensed Agents, Adjusters and other Insurance Representatives	123,161
Licensed Non-Resident Insurance Agents and Adjusters	28,483
Bail Bond Runners, Limited Surety Agents and Professional Bail Bondsmen	780
Warranty Association Contracting Sales Agents	7964

Bureau of Consumer Research and Education

Collects, organizes and distributes to the public, information relating to the role of the Insurance Commissioner and the Department of Insurance, the several types of insurance available in the market place and consumers' responsibilities when purchasing insurance products.

CONSUMER BROCHURES AVAILABLE AS OF JUNE 30, 1989

- Automobile Insurance Shoppers' Guide
- Commercial Insurance Consumers' Guide
- Health Maintenance Organization Consumers' Guide

- Medicare Supplement Insurance Shoppers' Guide
- Before the Storm.. Insurance Answers (Hurricanes - Also available in Spanish)

Bureau of Field Operations

Provides service to individual consumers through the proper enforcement of insurance policies and the Florida Statutes and Rules governing the insurance industry and its representatives. These functions are administered through the use of a statewide, toll-free Hotline Unit in Tallahassee, the Tallahassee Office, and ten service offices, identified as follows:

TOLL-FREE HOTLINE
1-800-342-2762

During Fiscal Year 1988-89, 190,589 calls were received on the Consumer Toll-Free Hotline.

DIVISION OF STATE FIRE MARSHAL

The Division of State Fire Marshal is responsible for a variety of activities involving the protection of life and property from the ravages of fire. Florida Statutes, Chapter 553, "Manufacturer, Distribution and Use of Explosives"; Chapter 633, "Fire Prevention and Control"; and Chapter 806, "Arson", govern the Division's major areas of responsibility.

The Division operates four bureaus and one section. The Bureau of Fire and Arson Investigation responds to requests from agencies for investigations of fires which occur under suspicious or undetermined circumstances. The Bureau of Fire Prevention promulgates rules governing fire safety and inspects state-owned and -leased buildings to assure compliance with fire codes. The Bureau of Explosives and Fire Equipment regulates fire equipment dealers, fire protection contractors and explosives handlers. The Bureau of Fire Standards and Training provides training and certification for firefighters. The Fire Incident Reporting Section receives and compiles data on fires from fire departments throughout the state. Staff from these bureaus are located in seven field offices and the State Fire College in Ocala.

The mission of the Division can be accomplished through assistance to and involvement in the fire service community to ensure protection of the citizens of Florida.

SECTION OF FIRE INCIDENT REPORTING

The Florida Fire Incident Reporting System continued to grow in 1988 processing over 415,000 incidents. This number represents an increase of 52,000 reports over 1987 and an increase of 222,000 reports since 1982, the first complete year data was collected.

These incidents were processed by FFIRS in three different modes. Thirty-seven percent of the incidents were keypunched by reporting fire departments and submitted on magnetic tape, 8 percent of the incidents were keyed by fire departments using a personal computer, and submitted on diskette, and 55 percent were submitted on paper and keypunched at the Treasurer Management Information Center.

The number of paper forms processed each year has increased despite the fact that some departments are now reporting on diskette or magnetic tape.

These three modes of submission are compatible because the format and codes used are standardized. Currently 15 vendors have personal computer software that is compatible with FFIRS and the National Fire Incident Reporting System. NFIRS Version 4 is the recognized standard for incident reporting.

In 1969 the National Fire Protection Association adopted the NFPA 901, Uniform Coding for Fire Protection. This action started the development of tools for the Fire Reporting Field Incident Manual in 1971.

The collection, verification, editing, and compiling of the 1988 data was completed in June 1989. After analyzing these data, the text, graphs and charts were prepared for the State Fire Marshal's Annual Report - Florida Fires. When the 1988 fire data was compared with that of 1987, 60 percent of the data was found to be within two percentage points of the 1987 data. We would like to present some of the potentially significant data where the percentages for the two years showed a marked difference. In 1988, 206 accidental fire deaths were reported. Other years were as follows: 181 (1987), 205 (1986), 213 (1985), and 191 (1984).

Of the 206 deaths the percentage of black male victims increased by 7.9 percent over 1987, and their 1988 deaths represents a 9.9 percent increase above the average of black male deaths over the last five years. Total black fire deaths increased by 8.3 percent in 1988, with an increase of 11.1 percent over the average of the last five years. Blacks also accounted for 72 to 77 percent of the victims in the following categories: victims ages 0-14, victims dying as a result of a space heater or other supplemental heating source fire, fires caused by unsupervised children playing with matches, lighters, etc., and deaths caused by lack of egress from the fire scene. The number of white male fire deaths decreased for the second time in 2 years, and is 9.9 percent below the average for the last five years.

The use of fire department man-power has also remained consistent as follows: fire calls - 43.4

percent of total man-hours, rescue calls - 33 percent, hazardous conditions calls - 7.5 percent, false calls - 6 percent, good intent calls - 5.9 percent, service and other calls - 4 percent.

BUREAU OF FIRE AND ARSON INVESTIGATIONS

The violent crime of arson is a concern of all Florida citizens due to the potential loss of life and destruction of property. The Bureau's work load increased 105% from 1979-80 to 1988-89 fiscal year. The average dollar loss per arson case for the 1988-89 fiscal year was $16,783,780.65. In 1974 it was less than $10,000 per case. During 1988-89, the Bureau responded to 3,580 investigations.

Among the Bureau's improvements are the development of two additional Mobile Fire and Arson Investigation Units, completion of the state wide radio communications system , automation of the headquarters and field records with computers, legislative approval for the construction of a $1,625,000 Arson Laboratory, and initiation of a 24-hour service office in the Tallahassee headquarters office. The new laboratory will be located near Tallahassee and will be staffed with four chemists.

The Mobile Fire and Arson Investigation units are constructed similar to a heavy rescue unit, but the design is specifically for equipment to perform extended investigation of fires. The units have a portable gas chromatograph, video recording equipment, various electronic hydrocarbon detectors, portable lighting, power generators, power tools, etc. The unit is utilized on large fire losses. A team from the Bureau responds with the unit and integrates with local investigative authorities. A unit will be assigned to three regions, South, Central and North.

The bureau has opened two additional field offices located in Daytona Beach and Pensacola. An additional office is anticipated in Ocala this year. All ten field offices have on-line computers. This permits the storage and cross referencing of names, addresses, etc., of persons having multiple fires in Florida. The computer system permits reports to be generated and transmitted by computer. This improves management of the Bureau's administrative activities, improves and increases information available to investigators and reduces cost. The Bureau is presently working on the automation of fire/arson investigation reports. The report will be generated by the field offices and forwarded to Tallahassee by computer.

The Bureau received funding from the legislature for construction of a State Forensic Arson Laboratory. The Bureau received approval from the Leon County School Board to sublet land and construct the laboratory at the Lively Law Enforcement Training Facility, in Gadsden County. Construction began on June 19, 1989 and the laboratory is scheduled for occupancy in April, 1990.

The Bureau has a toll free telephone number (1-800-638-3473) for agencies to call for investigations. The Bureau has also initiated a 24-hour service office in Tallahassee. A duty officer will be assigned after normal working hours to receive calls, notify investigators, etc. The 24-hour operation is anticipated to be operational before the end of 1989.

FISCAL YEAR July, 1988 - June, 1989

BUREAU OF FIRE PREVENTION

The duties and responsibilities of the Bureau of Fire Prevention are set forth in Chapter 633, and Sections 255.25, 393.067, 394.879, 396.176, 400.441, 509.215, and 526.141, Florida Statutes. These include the following:

a. Prevention of fires.

b. Storage, sale, use, keeping, manufacture, handling, or other disposition of combustibles, flammables, carbide, and crude petroleum any of its products; and the State Fire Marshal may prescribe the material or receptacles and building to be used for such purpose.

c. Installation and maintenance of fire alarm systems and fire-extinguishing equipment.

d. Construction, maintenance, and regulation of fire escapes.

e. Means and adequacy of exits from all buildings in event of fire.

f. Establishment of uniform fire safety standards for state-owned and state-leased buildings and for all hospitals, nursing homes, adult congregate living facilities, correctional facilities, public schools, public lodging establishments, public food-service establishments, elevators, migrant labor camps, mobile home parks, recreation vehicle parks, residential and nonresidential child care facilities, and self-service gasoline stations, of which standards the State Fire Marshal shall be the final administrative interpreting authority.

g. Inspection of state-owned or state-leased buildings on a recurring basis, not later than every two years, and to ensure that "high-hazard" occupancies are inspected at least annually for the purpose of ascertaining and causing to be corrected any conditions liable to cause fire or endanger life from any violation of the fire safety standards for state-owned or state-leased buildings.

h. Interpret the state's fire safety standards.

i. Review building construction plans for compliance with fire safety standards.

Serve (through the Division Director and the State Fire Marshal) as the final administrative interpreting authority of the state's fire safety standards.

k. Serve as a "service bureau" for architects, engineers, fire protection officials and others. This includes serving as a central reference point and source of information, interpreting technical provision, sponsoring symposiums, conferences, etc., on fire related matters.

1. Maintain comprehensive records, including copies of fire safety inspection reports of each state-owned and state-leased facilities.

The Bureau coordinates with approximately 640 fire departments with which the Bureau works. We also maintain a working relation with building officials, city and county officials, insurance companies, loss management representatives, building contractors, technical personnel from other state agencies, architects, engineers, and others with an interest in fire protection, all of which consult the bureau for technical assistance on fire laws, administrative rules and codes or standards and the resolution of deficiencies.

The bureau is charged with the responsibilities to conduct annual fire safety inspections of high hazard properties such as prisons, juvenile detention centers, mental institutions, etc., and to complete a fire safety survey of other state-owned and state-leased facilities at least every two years. Three Fire Protection Specialist Supervisors and 21 Fire Protection Specialists are located in nine field offices to respond to statutory mandates. The Fire Protection Specialists inspected approximately 12,000 buildings during fiscal year 1988 - 89. This figure reflects statutory mandates, including special projects presented to the bureau by citizens due to the state's increase in population and fire safety awareness.

Code Enforcement continues to be a significant activity for the bureau. Approximately 15 cases per year are forwarded to the Bureau Chief for further action. In many instances, these cases can be resolved after consultation with all parties involved. Failing this, Legal action must be instituted e.g. Administration Hearing, circuit court, etc. For failure to comply with fire safety standards.

The plans review section was staffed by four professionals and one support staff person during the 1988 - 1989 fiscal year. In fiscal year 1988 - 89, a monthly average of 82 plans were reviewed for compliance with fire protection and safety standards. A total of 993 plans were reviewed by the staff. Statutory mandates governing response time for reviews necessitated for shifting of workload responsibilities to meet other statutory requirements. This section was also helpful; in providing special assistance to individuals, design professionals, fire officials, building officials and others involved with complex fire protection projects, saving the public millions of dollars.

Section 633.01, Florida Statutes, provides that the State Fire Marshal shall make and promulgate all rules necessary to implement the provisions of Chapter 633 entitled "Fire Prevention and Control". Other provisions require updating of rules or the development of new standards. Several administrative rules have been revised and submitted to Legal during this period.

Fire Protection Specialists from the bureau have provided technical assistance to fire officials, local governments and the general public on questions relating to the migration of hazardous materials from underground tanks and containers, as well as information concerning new legislation passed during the 1989 legislative session.

A significant operation of the bureau is the fire alarm analysis section. This section accounted for more than 700 electronic fire warning equipment tests during fiscal year 1988 - 1989. The section was also responsible for identifying fire alarm contractors who violated state fire safety standards for alarm system installations in state-owned projects. The section reports such findings to the Department of Professional Regulations for their review and further disposition.

BUREAU OF EXPLOSIVES AND FIRE EQUIPMENT

The Bureau of Explosives and Fire Equipment is responsible for the administration and enforcement of

Chapter 552, Florida Statutes, "Explosives", Chapter 554, Florida Statutes, "Boiler Safety", and several sections in Chapter 633, Florida Statutes, "Fire Prevention", concerning licensing, regulation, examination, and training of fire equipment dealers, fire equipment permit holders, and fire protection system contractors. The Bureau's primary function is to safeguard the lives and property of the citizens of Florida through the enforcement of laws and rules regarding explosives, boiler safety, and fire protection equipment.

As the regulatory agency for the four programs, this Bureau investigates the illegal use of and/or possession of explosives; inspects boilers for compliance with safety requirements; investigates the improper installation and servicing of portable fire extinguishers and fire suppression systems; investigates the illegal actions of any fire protection system contractor. All persons holding licenses, permits, or certificates under any of the four programs are qualified by examination at particular levels of expertise in the four separate industries. All applicants for fire equipment dealer licenses and permits must attend a 40-hour training course prior to taking the examination.

In addition to the four regulatory programs, the Bureau is responsible for issuing certificates of registration to all manufacturers, distributors, wholesalers, retailers and seasonal retailers of sparklers. The certificate is issued upon submission of a properly completed form and the necessary fee. No training or examination is required and the Bureau has no enforcement authority.

The Bureau has 18 full-time positions to serve the state. Special Investigators for the dealer, contractor, and explosives programs are assigned to the Tallahassee, Jacksonville, Orlando, Tampa, West Palm Beach, and Fort Lauderdale field offices. Deputy Boiler Inspectors for the boiler safety program are located in Tallahassee, Jacksonville, Tampa, and West Palm Beach.

BUREAU OF FIRE STANDARDS AND TRAINING 7/1/88 - 6/30/89

The Bureau of Fire Standards and Training is the vehicle through which the vast fire service training and education responsibilities of the Division of State Fire Marshal are executed. The Bureau has the responsibility for functions relating to qualifications and standards for employment, training and education of firefighters, certification of fire inspectors, curriculum development and submission of reports and recommendations to the Division of State Fire Marshal concerning the improvement of Fire service training and education.

The Bureau is also responsible for the administration of the Firefighter Educational Compensation Program. As of July 1 there were 2,800 firefighters participating in this program, 900 at the Baccalaureate level and 1,900 at the Associate level, and 350 firefighters seeking entry into the program were rejected. The total disbursement of monies through this program for this fiscal year was $1,700,426.32.

The Bureau of Fire Standards and Training is subdivided into three sections: Standards, Training and Curriculum Development.

The Standards Section is responsible for the administration of the Florida Firefighter Minimum Standards Training Program. This section also reviews the pre-employment paperwork to ensure that the employment was within the statutory limits, prepares psychomotor skills developed in the Minimum Standards Curriculum, and certified firefighters, instructors, fire inspectors, and training centers.

Professional consultations continue to be a growing function of the Bureau of Fire standards and Training. This past year the Bureau received a number of requests from municipalities to conduct studies and surveys relative to manpower, site location, equipment and training needs. The Curriculum/Public Education Section has devoted a great deal of time to public education. The Curriculum Coordinator has succeeded in implementing the LEARN NOT TO BURN curriculum in five county school systems.

This section continues to administer two Federal Grants where there is participation from seven southeastern state. The first grant is for Training Resource and Data Exchange (T.R.A.D.E.). The purpose of the T.R.A.D.E. grant is to have a network of resources that are available for use. To date we have published a rescue manual and outline on Crash Rescue. The second grant is the National Community Volunteer Fire Prevention Program. The purpose of this grant is to get civic groups and fire departments together to present fire prevention programs. Over $180,000 in grant monies will be dedicated to these projects.

DIVISION OF LIQUEFIED PETROLEUM GAS

The Division of Liquefied Petroleum Gas is responsible for the administration and enforcement of Chapter 527, Florida Statutes, entitled "Sale of Liquefied Petroleum Gas." The Division is charged by this statute to enforce laws and regulations in the interest of public safety where LP gas is stored,, transported, distributed and utilized. The Division's public responsibility for LP gas safety begins when the product enters state borders and continues until the product is safely consumed by the public.

Chapter 527, Florida Statutes, provides for state regulation of a highly technical and widely used commodity--liquefied petroleum gas. The unique characteristics of liquefied petroleum gas require a high level of expertise and special laws and regulations. The enforcement of the provisions of this law is essential for the public welfare for protection against loss of property, health and life by fire or explosion. The provisions of Chapter 527, Florida Statutes, insure that only competent persons engage in the business and that compliance with acceptable safety codes and standards is achieved.

Chapter 527, Florida Statutes, provides for rule making by due process. Under this provision, the Division adopts National Fire Protection pamphlets for safety. These national standard codes provide the safety guide for the storage, handling and utilization of liquefied petroleum gas, and enforcement of these codes is the responsibility of the Division of Liquefied Petroleum Gas Inspectors.

The Division has been certified by the Federal Office of Pipeline Safety to enforce the Pipeline Safety Act as it applies to liquefied petroleum gas pipelines. The Pipeline Safety Program, through a federal grant, is financed on a 50/50 basis by the US Department of Transportation.

Personnel of the LP Gas Division organize and present safety seminars and workshops on subjects dealing with safety practices wherever LP gas is involved. They also serve local authorities as experts in the field of code interpretation and acceptable LP gas safety practices.

The Division rules on the acceptability of proposed plans for the installation of bulk LP gas storage. The Division's inspectors follow-up with on-site inspections of these installations to assure compliance with adopted safety standards. In addition, Division inspectors routinely inspect all installations where LP gas is sold. There are approximately 3,500 licenses issued annually through the Division of Liquefied Petroleum Gas. License revenue is the prime source of the LP gas safety enforcement budget. There are 19 full-time and one part-time position assigned to this Division to serve the state. Personnel are located in West Palm Beach, Orlando, Tampa, Jacksonville and Tallahassee.

The Division's responsibility is to promote LP gas safety in the State of Florida for the protection of the public health, safety and welfare.
